*Other Ingredients* ......................... 99.994%
*Contains Denatonium Benzoate

TOTAL 100.000%
KILLS RATS & MICE

Kills Warfarin Resistant Norway Rats, roof rats, and house mice may consume a lethal dose in less than 10 days after baiting begins. For dead rodents appearing four or five days after baiting begins, if killed rodents are 100 feet from the bait site may be placed in trash or delivered to city waste collection facilities. Wastes resulting from the use of this product may be placed in trash or delivered to city waste collection facilities.

NOTE TO VETERINARIAN
For animals ingesting bait and/or showing poisoning symptoms, call a veterinarian immediately. See side panels for First Aid and additional precautionary statements.

STORAGE AND DISPOSAL
Do not contaminate wells, food, or feed by improper or accidental disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed away from other chemicals. Do not broadcast bait. Do not use this product in shingled roof spaces, or in locations where rats and mice or their signs have been observed. Before baiting and after baiting, clean the area to minimize the risk of exposure to domestic animals and pets. Do not get in eyes, on skin, or on clothing. When used in USDA inspected facilities, this product must not be applied directly to food or feed crops. Protect food from contamination.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use or handling contrary to label instructions.
