FOR USE IN COMMERCIAL, INDUSTRIAL AND RESIDENTIAL AREAS

ACTIVE INGREDIENT:
Fipronil*: [5-Amino-1-(2, 6-dichloro-4-trifluoromethyl) phenyl)-4-(1, R, S)-(trifluoromethyl) sulfinyl)-1H-pyrazole-3-carbonitrile]: .......................... 0.01%

OTHER INGREDIENTS:........................................................................... 99.99%

Total:............................................................................................................ 100.00%

*CAS NO. 120068-37-3

EPA Reg. No. 432-1259 EPA Est. No. 071106-GA-003

STOP - Read the label before use.

Keep out of reach of children.

CAUTION

Contents: 4 Reservoirs
30g (1.05 Oz) each
Total Net Weight: 120g (4.2 Oz)

Contains 4 prefilled reservoirs for use with the MAXFORCE
Bait Injector

FIRST AID

IF ON SKIN
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.
You may also contact 1-800-334-7577 for emergency medical treatment information.

FC SELECT
### General Directions

**1. Contact Lenses:**

- Remove contact lenses after the first 5 minutes.
- Continue rinsing.

**2. Rinse Eye:**

- Hold open the eye and rinse slowly and gently with water for 15-20 minutes.

**3. Call:**

- Call poison control or a doctor for treatment advice.

**DOMESTIC ANIMALS**

**Physical and Chemical Hazards:**

- Moderate eye irritation. Avoid contact with skin, eyes, and surfaces.
- Harmful if absorbed through skin.

**Precautionary Statements:**

- Not easily accessible to children and pets.
- In zoos, do not treat food preparation surfaces.
- Do not apply bait in food/feed areas of food/feed handling establishments other than as a listed above or aided by trapping techniques or spot flushing.

**STORAGE AND DISPOSAL**

- Store in a cool, dry area out of reach of children.
- Disposal: Do not reuse container. Place in the trash.

**MAXFORCE Refillable Bait Station**

- Listed above or aided by trapping techniques or spot flushing.

**Application Rate Table**

<table>
<thead>
<tr>
<th>SPECIES/LEVEL</th>
<th>APPLICATION RATE</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERMAN OR BROWN-BANDED COCKROACHES</td>
<td>1-2 SPOTS (DIME SIZED)</td>
</tr>
<tr>
<td></td>
<td>OR 1 1/2” – 3” BEAD SIZE 1/3” – 1/2” (PER SQ YD)</td>
</tr>
</tbody>
</table>

**Instructions for Use:**

- To attach a new reservoir: Follow the directions above.
- To replace reservoir: Drive rod pointing up, pull out as far as it will go. The black outlet cap is reusable.

**For roach gel:**

- Place gel under baseboards, sinks, countertops, seats, and enclosed processing systems (mills, dairies, edible oils, spices). Serving areas are also considered a food/feed area.

**Application Within Food/Feed Areas**

- Application of this product within food/feed areas occurs in inaccessible areas. Gel placements should be at treatment only. If gel contacts an exposed surface, remove gel and wash exposed surface. Food/feed areas may be identified by visual inspection of such areas.

**Areas to Treat:**

- Restaurants, food processing plants, supermarkets, hospitals, nursing homes, motels, hotels, apartment buildings, bakeries, beverage plants, breweries, bottling plants, frozen food plants, schools, laboratories, computer facilities, candy plants, canneries, cereal processing and -- processing systems (mills, dairies, edible oils, spices). Serving areas are also considered a food/feed area.
Do not treat food preparation surfaces. Do not apply bait gel to areas which have been recently sprayed with insecticide, and do not spray insecticide over gel as it may cause the bait to become repellent.

Gel placements should be at or near harborages or aggregation areas, such as corners, or cracks and crevices. Numerous smaller placements will provide faster control than fewer larger spots, especially for German cockroach control.

For outdoor use (adjacent to home -or- structure): Place in cracks or crevices adjacent to structures where large roaches† may rest or breed. Apply bait to potential points of insect entry, such as eaves, sills, and expansion joints. Apply bait in protected areas whenever possible. Environmental stresses such as direct sunlight and water will reduce the residual effectiveness. † American, Oriental, Brown, Smokey Brown

Do not exceed 1 tsp. per station. If the station is not equipped with a sticker to identify the contents, apply a sticker to the inside of the station.

Directions for loading reservoirs and operation:
1. With the teeth of the drive rod facing up, pull the drive rod all the way back. If the drive rod is initially hard to move, simply un-screw (turn counter-clockwise) the black portion of the applicator that holds the gel reservoir until the drive rod moves easily.
2. Attach a pre-filled reservoir of gel with a twist-locking motion. Remove the outlet cap and attach a dispensing tip. Break-tip Reservoir: Prior to use, break the snip-tip closed end of the gel reservoir at the scored line. After use, the reservoir may be resealed with the enclosed black outlet cap. The black outlet cap is reusable.
3. Turn the knob of the drive rod so that the teeth are facing down and move it slightly forward so that the trigger mechanism will engage. Squeeze the trigger until the drive plunger seats against the piston in the gel reservoir. Gently squeeze the trigger until the gel flows out.
4. If gel continues to flow after the trigger is released, simply un-screw the portion of the bait applicator that holds the reservoir to a point where gel does not continue to flow after the trigger is released. Pest population reduction will be apparent within 2 -or- 3 days for German roaches and 8 days for American roaches.

Most important locations:
Behind appliances, along baseboards, under appliances and under sink.

• Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.
IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability.

CONDITIONS:
The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Bayer CropScience LP.
