

EcoPCO® JET•X

WASP/HORNET/YELLOW JACKET CONTACT INSECTICIDE

EcoPCO® JET•X is a specifically formulated jet aerosol for the professional pest control operator.

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Shake well before using.

Wasp and Hornet Treatments: Stand a safe distance from the nest. Hold the aerosol can in an upright position and aim actuator opening toward nest. Treat nest until wet. Contact as many wasps/hornets as possible. Best time to apply is in the evening or early morning when they tend to be in or around the nest. Repeat as necessary.

Yellow Jacket Treatment: Stand a safe distance from the underground nest. Hold the aerosol can in an upright position and aim actuator opening toward nest. Apply with a sweeping motion and contact as many yellow jackets around nest opening. Next, approach nest opening and apply directly into opening for 8 seconds to kill yellow jackets in the nest. This will also repel any yellow jackets trying to return to the nest, and cause them to fly away. Repeat as necessary.

Spider Treatments: Aim actuator at spiders and web and apply. Contact as many spiders as possible. Repeat as necessary.

*EcoPCO® JET•X should not stain surfaces such as vinyl or painted siding. However, since it is impossible for the manufacturer to test all surfaces under all conditions, good application practices recommend that you test the spray in an inconspicuous area when treating a new surface.

Questions or Comments: Call 1-888-326-7233 weekdays, 9:00 a.m. to 5:00 p.m. CST

Chemical Safety Information: Call 1-800-535-5053 anytime (InfoTrac Chemical Response System)

VOC compliant in all states.
